During an emergency every second counts. We are always ready to take care of your emergency. River Oaks Emergency Center gives you the trust and reliability in medical care for you and your loved ones.

At River Oaks Emergency Center, we are able to provide the highest quality emergency care through a freestanding emergency center. We are open twenty four hours a day, seven days a week with an average wait time of less than ten minutes, all while providing a high-level emergency care for urgent and life threatening emergency conditions.

River Oaks Emergency Center is committed to a growing health care customer-service movement that promotes quality and efficiency. Our Freestanding Emergency Center improves access to timely emergency medical care. We operate under the

processes and protocols that are administratively linked to hospitals.

You can rest assured that upon arrival at River Oaks Emergency Center you will receive a prompt examination and will be treated by experienced and caring registered nurse and emergency room physicians. Immediate testing and diagnosis is available with River Oaks Emergency X-Ray, CT Scanning, Ultrasound and Laboratory. After receiving treatment you will be discharged home, or if needed you will be transferred to another facility with direct admission to a hospital.

For the comfort of our guests and family members, a lobby area and coffee bar are available while awaiting treatment. Our goal is to provide you with a comfortable, elegant and calm health care environment for both you and your family or friends during your time of need. ■
