For almost 40 years, Trendmaker Homes has been Houston's leader in affordable luxury homes. The key to our success is keeping our customers satisfied by providing a product and a buying experience that is nothing short of exceptional. A recent report is nothing short of exceptional. A recent report from Woodlands O'Brien, an independent real estate market research firm stated that 99% of our buyers in 2009

were "willing to Refer." In fact, 35% of all of our home sales last year were a result of a direct referral. The report went on to say that customer comments indicated an extraordinarily strong appreciation for the quality of the homes, the overall buying experience, and a home-building team you can trust. Trendmaker builds homes in the finest communities throughout the greater Houston areas. Experience a Trendmaker home today! ■
