

IMAGINE HOUSTON

**Baylor College of Medicine
Points of Pride**

- Baylor College of Medicine (BCM) is consistently ranked among the nation's top medical schools for research and primary care by *U.S. News & World Report*.
- The BCM Human Genome Sequencing Center was one of three National Institutes of Health (NIH)-funded genome centers that mapped the entire human genome.
- Bert O'Malley, MD, chair of molecular and cellular biology at BCM, was awarded the National Medal of Science, the nation's highest scientific honor.
- The College was designated a Diabetes and Endocrinology Research Center by the National Institutes of Health.
- The Dan L. Duncan Cancer Center at BCM is a National Cancer Institute (NCI)-designated cancer center.
- BCM's legacy of medical breakthroughs began with life-saving heart surgeon Michael E. DeBakey, MD, and continues today with Bert O'Malley, MD, whose work has increased knowledge and treatments for breast cancer, inflammatory disorders, reproductive and metabolic diseases.

VOLUME TWO

IMAGINE HOUSTON

Baylor College of Medicine (BCM), one of the nation's top-ranked medical and research institutions, is advancing human health through a premier team of physicians, scientists, researchers, and educators, all collaborating to bring an end to disease and suffering. Together, these extraordinary minds in medicine and science are improving lives around the world and delivering outstanding patient care here in our own community. Our physicians treat patients in numerous hospitals and healthcare facilities throughout the Texas Medical Center, including our state-of-the-art adult outpatient center, Baylor Clinic, 6620 Main Street.
