

# ACCUDATA SYSTEMS, INC.

A HOUSTON ORIGINAL

In September of 2007, Accudata Systems celebrated their 25th anniversary by hosting a benefit for Houston's M. D. Anderson Cancer Center and presenting them with a check for \$53,000 to help fund cancer research.

Accudata Systems, Inc. is a Houston-based IT consulting and integration firm with more than 26 years of experience providing high-impact IT services and integrated solutions. With an unwavering commitment to customer service and satisfaction, Accudata Systems has grown to become one of the largest and most trusted IT integrators in the country. In 2007, the Houston Business Journal ranked Accudata Systems as the largest Houston-based computer network and systems integrator.

As trusted advisors, we help our clients maximize the capabilities of their IT environment while maintaining performance, reliability and security. With services ranging from incident support to strategic planning, our ongoing focus in networking and security technologies has provided the ideal foundation for our specialized expertise in the following areas:

- Enterprise Security
- Network Infrastructure
- Enterprise Platforms
- Unified Communications
- IT Compliance & Best Practices
- Managed Services

Much of Accudata Systems' work is project based, employing a highly dedicated, experienced and certified team of engineers, consultants and project managers. As an organization that thrives on adding value to our clients' IT environments, one of Accudata Systems' founding and steadfast philosophies is to do everything within our control to meet or exceed every client's expectations. The proof of this commitment is not in our words but in our actions. This customer-centric approach has resulted in relationships spanning decades with many of Houston's largest and most respected organizations. ■
