Founded in 1999, Northwoods Catholic School offers a uniquely exceptional private Catholic education to students in Pre-Kindergarten 3 through 8th Grade, with gender-specific educational classes. Kindergarten through 5th Grade participates in gender-separate classes. The highly accredited curriculum at Northwoods Catholic School challenges and prepares every student for their highest academic potential. Northwoods' graduates are well equipped for college-preparatory high schools and know that their personal formation has only just begun.

Northwoods Catholic School is built upon the principles and foundations of the Catholic faith. We implement the proven method of Integral Formation® a comprehensive approach to education which educates the whole person — intellect, character development, spiritual growth, and apostolic service — and guides each student to fulfill the mission for which he or she was created.

Students learn and grow in an environment that encourages faith, service, compassion for others and healthy peer relationships and friendships. The

supportive faith community at Northwoods gives students the motivation and courage to pursue their own talents. The end result is an authentic Christian leader who continues to live out the school's motto: Semper Altius, which means "Always Higher."

Each student at Northwoods Catholic School is given personal attention, as teachers partner with parents to assist and guide children toward reaching their full potential and becoming leaders. The mission to teach the mind, educate the heart and form the character fosters a complete, integral formation of young people in cooperation with their parents. With this philosophy, Northwoods provides society with motivated, self-confident and constructive Christian leaders prepared for and committed to transforming society.

Located just north of Houston in Spring, Texas, Northwoods Catholic School is accredited by the Texas Catholic Conference Education Department and is affiliated with the Archdioceses of Galveston-Houston. Northwoods Catholic School operates under the auspices of the Texas Education Association. ■
