C&J Energy Services is a leading provider of well construction, well completions and well services, with one of the largest workover and well servicing fleets in North America. C&J operates in some of the most active North American onshore basins with facilities across the United States and Western Canada. C&J also has an office in Dubai and is in the process of establishing an operational presence in key countries in the Middle East. For additional information about C&J, please visit [cjenergy.com](http://cjenergy.com).
