

MRC GLOBAL

WE MAKE ENERGY FLOW™

MRC Global

909 Fannin Street
Suite 3100
Houston, Texas 77010
(877) 294-7475
www.mrcglobal.com

At its core, MRC Global is a supply-chain solutions company. They connect the world's best pipe, valve, and fitting (PVF) manufacturers with the world's best energy and industrial companies. MRC Global builds strong, long-term relationships that allow their customers to extend their supply chains worldwide.

In 2016, the Fortune 500 company will celebrate its 95th anniversary. What began as a family owned business in Charleston, WV is now a publically-traded, global leader in PVF distribution that calls Houston, TX home.

"By allowing us to concentrate on simplifying their PVF supply chain, our customers are able to focus on what they do best - bringing energy to the world,"

MRC Global Chairman, President and CEO, Andrew Lane said.

While the network of more than 400 service locations and long-standing relationships with a global manufacturing base are important parts of MRC Global's success, Mr. Lane credits the talented employees dedicated to the company's core values as its greatest strength.

"MRC Global is a group of people committed to providing excellent customer service and quality products and services while maintaining an outstanding level of integrity," Mr. Lane said. "Since our founding, the way we do business and where we serve our customers may be different but not who we are and where we are going. We have a solid foundation and an exciting future." ■
