Bay Area Regional is committed to providing the highest quality medical care while making a difference in people's lives.

Designed with a beautiful, soothing environment. Bay Area Regional offers some of the latest technology for physicians on the medical staff in order to provide advanced diagnostic and treatment techniques. Bay Area Regional has approximately 400 physicians on the medical staff and over 500 employees dedicated to providing exceptional care to the Houston Bay Area.

Since opening in July 2014, Bay Area Regional has received accreditation from the Joint Commission and performed more than 1,000 cardiac cath cases, brain surgery, open-heart surgery and has treated over 12,000 people in the emergency department.

Bay Area Regional also offers general surgery, orthopedics, surgical weight-loss, outpatient imaging, inclu-

ding 3D Mammography and much more. The hospital is now being expanded to almost double the number of private patient rooms and double the capacity of its emergency department, operating room and cardiac cath labs. Looking ahead, Bay Area Regional will open its new Women's Center with a Neonatal Intensive Care Unit in 2016.

Bay Area Regional Medical Center is located at 200 Blossom Street in Webster and accepts most major insurances including Aetna, BCBS, CIGNA, Healthspring, Humana, United HealthCare, Humana Military and TexanPlus.

To find a physician on the medical staff or to get connected with the hospital by attending a FREE community seminar, visit the website at www.BARMC.us or call 281-525-7000. ■
